"THE CHARITY BALL"

REHEARSALS BEING HELD AT ELKS' THIS WEEK.

TO BE GIVEN APRIL 18

At Empire Theater Under Direction of Mrs. Wm. M. Wallis, Jr.—Patronesses of the Play.

"The Charity Ball," which is being rehearsed by home talent under the direction of Mrs. William M. Wallis, Jr., will be presented at the Empire theater Tuesday night, April 18. Mrs. Wallis starred in this play several years ago, a fact that renders her doubly capable of directing the entire caste in giving a true interpretation of the play.

The ladies of the Elks' club, who organized themselves for effort for furnishing the tea rooms of the Elks' club house, are the patronesses of the play.

They announce that this will be the last entertainment they will give, and it is their intention to make it the crowning event of Maryville in the way of home productions, and they are already satisfied that it will be since the two rehearsals given at the Elks' club this week. The caste and synopsis of the play will be given in a few days.

The Elks' ladies have presented some of the best and most attractive entertainments at the Empire that have been given there, and we predict the one coming will indeed be the crowning event, as they intend it shall be.

Their work will be finished then and they will disorganize, as the furnishings will have been completed, and they have the satisfaction of knowing that they have done their full share in making one of the most attractive club houses in the state. They will have bought draperies, linen, china and silver, and some pieces of furniture at an expenditure of $1,000, all in excellent quality and taste.

Those who took on themselves the burden of this work are Mrs. Frank G. Shoemaker, president; Mrs. Edward G. Orear, vice president; Miss Clara Sturm, secretary; Mrs. Rodney F. Hamblen, treasurer, and Mrs. George P. Bellows, Mrs. Harry Irwin, Mrs. N. C. Covey, Mrs. William M. Wallis, Jr., Mrs. C. C. Corwin, Mrs. Robert G. Sanders and Miss Della Grems.

"Shower" for Miss Herren.

Mrs. Luther E. Forsyth, Mrs. Ferdinand Michau Townsend and Mrs. Ralph Wilson Eversole entertained with a "miscellaneous shower" for Miss Mary Alice Herren, a bride-elect, Thursday afternoon at Mrs. Forsyth's home, "The Bungalow," in West Terrace Place. The guests, soon after their arrival, were asked to write congratulatory messages in reply to the telegrams received by them Tuesday at the party given by Mrs. Joseph Jackson, Jr., which announced that Miss Herren's marriage to Mr. Wray Dudley of Pittsburg, Pa., would take place April 4. Miss Lulu Todd won the prize for writing the cleverest message. While the guests were thus engaged the hostesses showered Miss Herren the fourteen beautiful gifts that had been brought for her. After reading the messages a concert of old and new love ballads was given by Mrs. Ferdinand Townsend and Mrs. Eversole. A beautiful three-course luncheon was served, all in white and heart-shaped. The table was exquisitely decorated and was nearly hidden in bride roses and asparagus ferns. White candles in white holders and shades lit the table. The place cards were heart-shaped, hand-painted in violets and tied to dainty white vases decorated with Japanese love birds. Each vase held a bouquet of violets. The bride-elect has never appeared more charming to her friends than on this occasion. She wore a Grecian costume of pale pink and white messaline in Dresden design, and over it was a robe of white hand-embroidered gauze. A heavy white silk cord and tassels completed the perfect toilette. The hostesses wore lovely lingerie dresses. The guest list included Miss Herren and her mother and grandmother, Mrs. John W. Herren and Mrs. Henry Toel; Miss Mabel Allen, Miss Donna Sisson, Miss Lulu Todd, Miss Mae Corwin, Miss Helen Leffler, Miss Alice Martin, Miss Clara Sturm, Mrs. Joseph Jackson, Jr., Mrs. Edward L. COLLLEGE SPECIAL

WAS IN MARYVILLE THURSDAY EVENING.

A LARGE CROWD PRESENT

Maryville Was Last Stop on Tour—Meeting in Court House Was a Success.

The agricultural special train from the agricultural college of the state university arrived in Maryville Thursday evening about 7 o'clock on the Wabash. Before the train arrived at the freight depot a large number of people were waiting at the depot to see the celebrated cow, Josephine, and to see the exhibits on the train. The special was composed of seven cars. Scores of people visited the train while it was in the city.

The meeting in the court house was well attended, the house being well filled. Superintendent C. A. Hawkins presided over the meeting and made a very nice speech. He called upon Prof. Cameron of the agricultural department of the Normal, who delivered a short address.

Dr. W. P. Cutler, state dairy commissioner, was next called, and after a few minutes' speech was followed by Dean F. B. Mumford of the college or agriculture.

"What we are trying to accomplish by such trips as this," said Dean F. B. Mumford, "is to show the farmers that it is as necessary for a farmer to get a proper education to become a profitable farmer as it is for a lawyer or a doctor, or a teacher. When we accomplish this, and it seems every day as if we were more near to this goal, we will then have in our school many more students in the college of agriculture than are in all of the other schools or colleges of the university combined. We want the farmers to understand that the university is trying to serve them.

"Last year by the use of the hog cholera serum made at the college the state was saved $500,000. Forty thousand hogs were inoculated and 85 per cent of these were saved. At the market rate paid for hogs this means that the farmers of Missouri were saved a half million dollars. By the use of the serum the state can be saved $1,500,000 in this one item of hogs alone."

J. D. McNamara, general passenger agent of the Wabash, and Dr. J. C. Whitten, professor of horticulture, each made short addresses, and were followed by Prof. R. H. Emberson, instructor in rural education. Mr. Emberson is well known here, having been formerly a teacher in the Normal school. His many friends were glad to see him.

George P. Bellows of this city made a short talk, thanking the visitors for coming to Maryville.

The evening's program was closed by E. A. Trowbridge, professor of animal husbandry.

President A. Ross Hill of the university, who was to have been here, was called back to Columbia Thursday afternoon.

The lecturers on the train from Columbia were: F. B. Mumford, dean of the college of agriculture; Dr. W. P. Cutler, state dairy commissioner; S. M. Jordan, the Missouri "Corn Man;" J. C. Whitten, professor of horticulture; R. H. Emberson, instructor in rural education; E. A. Trowbridge, professor of animal industry; C. B. Hutchison, professor of agronomy; H. E. McNatt, assistant in dairying; J. W. Stewart, reporter, school of journalism.

For the Wabash railroad, J. D. McNamara, general passenger agent, St. Louis; W. A. Hopkins, division freight and passenger agent, Moberly; J. J. Shine, western passenger agent, Kansas City, and L. E. Rause, advertising manager, St. Louis.

Besides the champion cow, Josephine, on the train was a prize winning steer, Proud Robert, an Aberdeen-Angus, weighing 1,550 pounds; a Shropshire sheep, a Merino, and a Hampshire. The ten ears of yellow corn that won the premium in competition with corn from every part of the United States at Columbus, O., were shown. They were raised by T. R. Douglas in Shelby county. Mr. Douglass is a student in the university.

Missouri Chief Josephine, the cow that holds the world's record for milk production for eleven months, is a product of the agriculture farm at Columbia. She is owned by the University of Missouri. She gives about five times as much milk as the average cow. For five, six, seven, eight, ten and eleven months she broke the world's records for milk production. In twelve months she produced more than thirteen tons of milk.

The railroad officials and members of the agricultural train were well pleased with the meeting in Maryville.

HIGH SCHOOL ALUMNI HISTORY

The Democrat-Forum will publish a history of the Maryville high school alumni the first week in June.

Any one who will stop to think about it a moment will appreciate the fact that there will be considerable work about it—to correctly find out the occupation of nearly 400 students, who have graduated from this school.

But we are not caring about that feature of it, because we know it will be a real service to the friends of these former students of our high school to present so honorable an array of young manhood and young womanhood and their work as an inspiration to all who will read it, whether stranger or friend.

The Democrat-Forum will be grateful to the families or friends, or to the graduates themselves if they will write or phone us of the advancement and present address of those who do not reside in Maryville. We want to make the history as true and exact as possible.

All that will be necessary to secure the convention would be to get the approval of the members of the St. Joseph Dental society.

seen on dish towels before, and everyone was envying Mrs. Shinabargar her fine supply. After the finishing of this work each lady, with her dish towel for a napkin (we wonder if Mrs. Shinabargar learned that in Colorado) was invited to the dining room, where plates of delightful sandwiches, salad, etc., were passed, ice cream, cake and coffee following as a second course. As the guests were preparing to depart a large basket was brought into the room and each lady given the end of a string, the other end being in the basket. At a word from the hostess the lid flew open and every one drew a—dish towel, not their own, of course, but one some friend had hemmed and placed her mark upon. Did you ever hear of so many uses for a common flour sack? But let me tell you there is one woman in this town who is the proud possessor of one of those same flour sacks, and it has a beautiful convent hem, with a dainty little W in the corner. Never use that for common dish towel—not much. Mrs. Shinabargar was assisted by Mrs. Thomas Shinabargar and Mrs. H. B. Griffith, and the following ladies voted the party a decided success: Mrs. Emma Cobb, Mrs. H. C. Clutter, Mrs. Elizabeth Smith, Mrs. Matilda Curry, Mrs. A. C. Monroe, Mrs. Bess Goodson, Mrs. J. C. WAR CLOUD AGAIN LOOMS LARGER

New Call for Six or Seven Thousand Recruits.

PAEPARE FOR SUDDEN MOVE.

General Carter Issues Order at San Antonio—Dr. Caricristi Says President Taft Will Intervene by May 1. Report is Sent to Madero.

San Antonio, Tex., March 24.—With a new demand for 6,000 or 7,000 recruits to raise the regiments in Texas and California to full strength, the issuance of an order by General Carter providing for a sudden move, should it be required, and a statement by Dr. C. F. Caricristi, one of the dominant figures in the Mexican revolutionary junta, that the United States would intervene in Mexico unless there was a definite show of tranquillity by May 1, the recently diminished war cloud looks larger.

Dr. Caricristi felt sure enough of his facts to embody them in a report to Francisco I. Madero, the revolutionary leader, who at the last report was within thirty miles of Chihuahua.

Dr. Caricristi urged the insurrecto chief to achieve a decisive victory at all cost by May 1, for, he wrote, President Taft will not wait longer than that for quiet to be restored, business resumed and traffic over the railroads to be restored. Dr. Caricristi is one of the directing minds of the revolutionary junta. He is a lawyer, a physician and world-traveler, probably their best trained diplomat.

General Carter's Order.

General Carter's order read as follows: "Under instructions from the war department the base for the division has been established at Fort Sam Houston, Texas, under direction of Brigadier General Joseph W. Duncan. The property accountability of officers belonging to the division will be limited to the articles of equipment and supply which are to actually accompany the division in field service. At present the division will be regarded as in a permanent camp, prepared to move with field service only. For practice marches, authorized tentage and permanent camp equipment will be left in camp, with proper guard to insure its protection. Should orders be given moving the division from this permanent camp orders will be issued from these headquarters for the disposition of the authorized camp tentage and equipment which need not at present be transferred to the base of supply officer."

Duncan Skeptical as to Firing.

General Joseph W. Duncan is very skeptical about another report arriving that American soldiers have been fired upon by Mexican regulars on duty across the river from Ojinaga. A telegram was received from a subordinate government official reporting the alleged occurrence, adding in his telegram that the Americans were compelled to seek shelter.

General Duncan said he had received nothing official as to any shooting and doubted the story. He said, however, that he had reported the matter to the war department and was conducting an investigation.

LOST MOTION.

(By Edwin A. Nye.)

An average bricklayer will lay about 1,000 bricks in one day.

The same man working under improved methods will lay as many as 2,700 bricks in one day.

The difference?

Under the old methods there is too much lost motion. The bricklayer must make some eighteen motions in laying one brick; also in bending over to lift the brick he lifts not only six pounds of brick, but about 100 pounds of brick mason. See?

In lifting 1 000 bricks, under the old system, he lifts 100,000 pounds of brick mason.

Under the new efficiency methods an unskilled laborer is hired to put the brick where the mason will not be compelled to stoop to get it.

Again, under the old system a brick mason must toss the brick in the air, turning it over until his touch tells him which is the top. Did you know a hand-made brick has a top? Under the new method the bricks are carefully piled in front of the mason right side up.

Moreover, under the old way the mason taps the brick several times to make it settle properly. The new way provides that the mortar shall be thinner, so that the brick settles into place of its own weight.

Little things.

Yes, but they make up the difference between laying 1,800 bricks and 2,700 bricks in one day, and it is easy to see how impossible it would be for a contractor under the old system to compete with a contractor under the new.

Lost motion—that measures the difference.

Is there such a thing in your business or profession? Maybe it is because you or your employer still bend over to get the brick that your competitor down the street is getting the better of you. There is lost motion with you. He cuts out every unnecessary turn.

Lost motion.

Any of that in your life? How about your health? Is there lack of harmony, or efficiency, of exercise, of regularity in the care of your health? Are you lifting yourself, like the brick mason, too many times a day?

Lost motion.

How about your mental health? Do you keep the bricks piled up in front of you, or do you waste many precious hours dabbling at this and that? You cannot expect your mind to build itself up when you lose efficiency in turning the bricks right side up.

Lost motion.

Your moral health? Are you building up the wall of character steadily? How about the mortar? Is it too thick?

Are you the victim of lost motion.

"Weren't you indignant when people you didn't know called you by your first name?"

Business in Denver Almost Suspended During Funeral.

Denver, March 24.—There was an almost complete cessation of business in Denver for a time out of respect to the memory of David H. Moffat, Colorado financier and railroad builder, who died in New York Saturday. When the funeral service began every street car in the city stopped for five minutes and every power house in the city closed down. Every wheel on the Denver, Northwestern and Pacific (the Moffat railroad) ceased to turn and work ceased so far as possible on the Denver and Rio Grande lines within the city.

All of the banks and practically all business houses and railroad offices were closed for at least part of the afternoon.

The funeral services at the family residence were private. The body was placed in the family vault in Fairmont cemetery until the arrival from France of Mr. Moffat's daughter, Mrs. James A. McClurg.

TO NODAWAY COUNTY FARMERS.

Maryville Banks and Merchants Make Deal With Missouri Farmer and Breeder.

Most Nodaway county farmers have heard about the Missouri Farmer and Breeder—Missouri's great new farm and stock journal which was started at Columbia about three years ago and which has already acquired the reputation of being one of the finest and soundest agricultural publications in the country. Being published in the home of Missouri's great Agricultural College, its chief object is to bring the farmers of Missouri into closer touch with the great work this fine institution is doing—and for this reason alone no Missouri farmer can afford to be without it. While the people of this state have not yet fully waked up to the fact, the Agricultural College of Missouri is today the leading institution of its kind in the United States, and it is high time our farmers availed themselves more generally of its invaluable help.

The Missouri Farmer and Breeder is edited by Hon. Geo. B. Ellis, for many years secretary of the Missouri state board of agriculture. There is no man in this state who so well understands the needs of Missouri farmers as Mr. Ellis, who owns a big farm himself and who, as a member of the legislature and as secretary of the state board of agriculture, has fought unceasingly for the advancement of our agricultural interests. The Missouri Farmer and Breeder covers every phase of agricultural endeavor—the raising of better farm crops, better live stock, building up the fertility of the soil, dairying, farm management, the prevention of diseases among live stock, poultry raising, fruit growing, the raising of alfalfa and everything else which concerns modern farm life. One invaluable thing about this fine publication is that all questions directed to it are answered by experts in the Agricultural college in the succeeding issue. In order to introduce it into the homes of 400 or 500 Nodaway county farmers at once, the publisher of the Missouri Farmer and Breeder has made the following unusual offer which has been accepted by the business men of Maryville, and of which the farmers of this county should take advantage without delay; the regular subscription price of the Missouri Farmer and Breeder is 50c per year, but in order to introduce it more rapidly into Nodaway county farm homes, Maryville business men have bought and paid for 400 three-year subscriptions for $1.00—which means that by leaving a dollar with any one of the firms mentioned below you will get the Missouri Farmer and Breeder for the next three years for 33 1-3 cents per year. In addition to this reduction in the regular subscription price, these firms have made arrangements for 400 copies of the Missouri Farmers' Hand Book, a copy of which they will give absolutely free with every one of these three-year subscriptions. This fine book is now being gotten ready for the press and will be ready for distribution during the summer. Nearly all its matter is being prepared by Agricultural college experts, and it will be an invaluable hand book on the raising of farm crops, the prevention of diseases among live stock, building up the fertility of the soil, dairying, horticulture, the diseases of poultry, domestic science and a hundred other helpful things which will make it an invaluable and indispensable compendium of information to any Missouri farmer. Remember that this hand book can only be gotten in this county through the firms mentioned in this article, and that they will present it free to every farmer who leaves a dollar with them for a three-year subscription to the Missouri Farmer and Breeder. It will be worth several times the price, and hence you should lose no time in seeing to it that one of these fine books is reserved for you.

The business men of Maryville are prompted solely in this matter by a desire to get the farmers of this county to reading the Missouri Farmer and Breeder in order that they may be brought into closer touch with the wonderful work which is being wrought in their behalf by Missouri's famous Agricultural college. They are not making a cent on the transaction. On the contrary, each firm has bought and agreed to place so many of these three-year subscriptions and they will lose a dollar on each subscription which they fail to place. Certainly any progressive Nodaway county farmer can afford to pay 33 1-3 cents a year for three years for as fine a publication as the Missouri Farmer and Breeder—especially when he receives in addition a free copy of the Farmers' Hand Book, which alone will be worth several times the price. For years the farmers of Missouri have been patronizing agricultural papers printed in Iowa, Kansas and Illinois—papers which are not in sympathy with the real interests of Missouri farmers and which often advocate ideas not suited to Missouri conditions. The Missouri Farmer and Breeder is published by Missourians, for Missourians. It is fighting your battles—trying to make your farm more profitable and your life's work more pleasant—and it deserves your support. It is the first time you have ever had a chance to line up for a real Missouri farm and stock paper. The lawyer, the doctor, the banker and the business men keep continually abreast of their profession or business and the progressive farmer must do the same. The old methods won't do. They belong to an age which is out of joint with modern conditions. The following firms have bought the number of subscriptions set opposite their names. Leave your dollar with one of them the next time you go to town and get them to put down your name for the Missouri Farmers' Hand Book:

WOMEN PRISONER DENIES CHARGES

Maria Stendardo Says Evidence is Manufactured.

CAMORRISTS MET AT HER HOME

Charges Against Her Are for Complicity in Murder and Also for Receiving Stolen Property—Alleged Steerer Denies Participation in Murder.

Viterbo, Italy, March 24.—Maria Stendardo, at whose home, the state alleges, the assassins washed their hands of the blood of the Cuoccolos, was examined by President Bianchi at the trial of the thirty-six Camorrists. She is one of the most interesting characters in the case and the only woman among the prisoners. The charge against her is complicity in the murders and the receiving of stolen goods.

In the course of the interrogation the accusation was made that she had bribed witnesses to testify falsely in aid of the defendants. This she denied, asserting that on the contrary, the Carabineers had offered to pay her $12 for each witness whom she secured to sign a statement prepared by them.

Woman Makes General Denial.

Maria Stenardo, whose defense was a general denial of the charges, is under middle age and retains much of the beauty that in youth resulted in many conquests in the poorer class among whom she was born and later made her a woman of ease and of influence, both in the Camorra and in the official life of Naples.

Her home is said to have been a resort of desperate criminals, while her friends included men in high places. She is an intimate friend of Nicola Morra, one of the alleged actual murderers of Cuoccolo and his wife and it is charged that Morra and his companions went to the woman's home following the murders. This Maria emphatically denied, insisting that it was another instance of manufactured evidence.

Alleged Steerer on Stand.

Ferdinando de Matteo, who is accused of having lurid Cuoccolo to his death, was another prisoner questioned. The particular charge against him is that he induced Cuoccolo to visit a lonely spot on the outskirts of Torre del Greco, on the pretext that they were to meet to organize a burglary at the home of Commanator Rossi Romano. Cuoccole fell into the trap and found himself in a place where everything had been prepared for his death.

Under examination De Matteo denied participation in the crime and that he was the head of the Camorra in his district. He said he hated Nicola Morra and would never work with him in a crime. They had quarreled years ago, he said, over a theft in which they were engaged.

FEUD FIGHT AT ROANOKE

Two Men Killed and One Mortally Wounded in Exchange of Shots.

Roanoke, Va., March 24.—Luther Lowe and Robert Lester are dead and Henry Lester mortally wounded as the result of a fight in Tazewell county and Ben Lester, a son of Henry Lester, is said to have started for the court house to surrender and plead guilty to the double murder.

For years bad feeling has existed between the Lowes and Lesters over a land deal and several fights have taken place between them.

Ben Lester returned from Bristol and was met at the train by his father, Henry Lester. On their way home they met Luther Lowe and Robert Lester and a quarrel followed.

Luther Lowe drew his revolver, fired at Henry Lester, the ball lodging in Lester's right side. Ben Lester whipped out his pistol and killed Lowe and Robert Lester before they could fire again.

Preacher Dies in Church.

Lima, O., March 24.—The Rev. P. P. Pope, pastor of Grace Methodist Episcopal church, dropped dead on the platform at the William Sunday tabernacle meeting just previous to the opening of the sermon. Apoplexy is supposed to have caused his death. He was sixty years old.

Rock Island Depot Burns.

Council Bluffs, Ia., March 24.—The Rock Island freight house in this city and contents, together with twelve cars loaded with freight for unloading, standing on the track adjoining, were destroyed by fire, involving a loss of $40,000.

Tom L. Johnson Better.

Cleveland, March 24.—The condition of former Mayor Tom L. Johnson, who has been in a dangerous state for the last ten days from cirrhosis of the liver, continues to improve.

AN UP-TO-DATE DRUGGIST

says it is surprising how many old-fashioned remedies are being used, which goes to show that it is hard to improve some of our grandmothers' old, time-tried remedies. For instance, for keeping the hair dark, soft and glossy, nothing equaling our grandmothers' "sage tea" has ever been discovered. Although, by the addition of sulphur and other ingredients, this old-fashioned brew has been made more effective as a scalp tonic and color restorer.

Nowadays when our hair comes out or gets faded or gray instead of going to the garden or garret for herbs and making the "tea" ourselves, we simply go to the nearest drug store and ask for a bottle of Wyeth's Sage and Sulphur Hair Remedy.

Druggists are authorized to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle and is recommended and sold by

IT'S ALWAYS BAD.

The Best of Backs Are Bad When They Ache, and Maryville People Know It.

A bad back is always bad.
Bad at night when bedtime comes,
Just as bad in the morning.
Ever try Doan's Kidney Pills for it?
Know they cure backache—cure every kidney ill?
If you don't, some Maryville people do.
Read a case of it:

J. A. Murphy, East Fourth street, Maryville, Mo., says: "I suffered considerably from kidney and bladder trouble. In the morning upon arising my back was weak and stiff and there was a dull ache in my loins which at times handicapped me in doin gmy work. Whenever I caught cold it settled in my kidneys, and at such times the kidney secretions became unnatural. I was run down in health when I read about Doan's Kidney Pills and procured a supply at Charles A. Love's drug store. Soon after beginning their use I found relief, and I am now free from kidney trouble. I occasionally take a few doses of Doan's Kidney Pills, finding that they serve to keep my kidneys in a normal condition."

Free Dyspepsia Sample

Sufferers from indigestion are waking up to the fact that peppermint lozenges, charcoal and "dyspepsia cures" are only makeshifts in the cure of so troublesome a complaint as chronic indigestion. What is required is something that will not only relieve but which will tone and train the digestive apparatus to again do its work normally, and this these simple remedies cannot do.

There is something more to the cure of indigestion than sweetening the breath, and yet a remedy that only contains digestive ingredients will not cure permanently, as the basis of indigestion is poor bowel circulation, and that requires a scientific laxative. We know of no remedy that combines these requirements better than Dr. Caldwell's Syrup Pepsin, which has been sold for a quarter of a century.

Dr. Caldwell's Syrup Pepsin is a laxative tonic, a scientific blending of natural ingredients for the cure of constipation, indigestion, liver trouble, sour stomach, sick headache and similar complaints. Its ingredients will so strengthen and tone the stomach and bowel muscles that they will again do their work naturally, and when that has been accomplished your trouble is over. Fannie Stuart, Staunton, Va., was a long-time sufferer, as was O. Tuck, Blackburn, Mo., and they both found their cure with this remedy. They became convinced that pills and tablets, salts, "dyspepsia cures," etc., were at best only temporary reliefs. They first accepted Dr. Caldwell's offer of a free sample bottle, which he willingly sends to anyone who forwards name and address. Later, having convinced themselves through the free sample, they bought Syrup Pepsin of their druggist at fifty cents and one dollar a bottle.

Dr. Caldwell personally will be pleased to give you any medical advice you may desire for your self or family pertaining to the stomach, liver or bowels absolutely free of charge. Explain your case in a letter and he will reply to you in detail. For the free sample simply send your name and address on a postal card or otherwise. For either request the doctor's address is Dr. W. B. Caldwell, R. 509 Caldwell building, Monticello, Ill.

Born With a Bank Account.

Were you born with a bank account? Haven't you often envied the fellow who was? A bank account is the stepping stone to fortune—the signboard to success—and it matters not how you came into the world, we are going to make it possible for some of the little fellows of the future to begin life with a savings account.

We are going to place to the credit of every child born in Nodaway county between April 1, 1911, and April 1, 1912, a cash deposit. The amount will be small, to be sure, but it will be a beginning and will come as free as the air. A certificate of deposit for twenty-five cents will be given to every such child that will bear four per cent compound interest until he is twenty-one years of age, when the whole amount may be drawn.

If he adds his spare pennies to this little account during childhood and youth, he will enter manhood with a handsome balance to his credit. You may also begin a savings account now. It is never too late to begin.

PAIN

Pain in the head—pain anywhere, has its cause. Pain is congestion, pain is blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—coaxes blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure.

If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood congestion—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the unnatural blood pressure.

Bruise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend

Dr. Shoop's Headache Tablets

How to Tell if Your Hair is Diseased.

Even if you have a luxuriant head of hair you may want to know whether it is in a healthy condition or not. Ninety-eight per cent of the people need a hair tonic.

Pull a hair out of your head; if the bulb at the end of the root is white and shrunken, it proves that the hair is diseased, and requires prompt treatment if its loss would be avoided. If the bulb is pink and full, the hair is healthy.

We want every one whose hair requires treatment to try Rexall "93" Hair Tonic. We promise that it shall not cost anything if it does not give satisfactory results. It is designed to overcome dandruff, relieve scalp irritation, to stimulate the hair roots, tighten the hair already in the head, grow hair and cure baldness.

It is because of what Rexall "93" Hair Tonic has done and our sincere faith in its goodness that we want you to try it at our risk. Two sizes, 50c and $1.00. Sold only at our store—the Rexall store. The Orear-Henry Drug Co.

The ladies of the Baptist church will hold a market at Andrews & Hempstead's next Saturday. Patronize them for good things to eat. 22&24

Two Shocks Damage Million Dollar Structure at Omaha.

CHARGE PLANTED NEAR WALLS

All Labor Difficulties Smoothed Over and No Motive Known for Deed. Damage is Placed at $15,000—Witnesses to Second Shock.

Omaha, March 24.—An unsuccessful attempt to blow up the new million dollar Douglas county court house was made at an early hour this morning.

Two terrific explosions of dynamite, the first at 12:55 and the second at 1:10 o'clock, felt in every corner of the city, marked the effort.

The dynamite had been placed in the basement of the immense structure, one in the southwest corner and the other near the center on the Harney street side.

The first explosion, that in the southwest corner of the building, blew out the flooring and the second forced the girders and four partitions from under the rest of the structure.

The damage is estimated at $15,000.

Superintendent Zeigler declares all labor troubles have been smoothed over and no motive is known for the deed.

Witnesses to Second Explosion.

Firemen at No. 3 station told the police that man and woman standing at Eighteenth and Harney streets told them that they had seen three men run from behind the fence which surrounds the court house.

To meet a dynamite explosion face to face and escape with no worse injury than having both eyes filled by the blast of dust and dirt, was the experience of Fireman Ed Simpson, O Bruhen, E. Hamelman and several other persons.

Fireman Simpson's eyes will be inflamed for several days, but the others were entirely unhurt by their unique experience.

These men were the first to enter the building. They were about twenty feet inside the door when the second explosion threw them backward.

"I have heard of men having strange experiences in cyclones," said Hamelman, "but if anything could be worse than meeting a bomb during its busy hour, I would like to hear of it. My ears will ring for a week with the noise."

Home of Negro Blown Up.

Muskogee, Okla., March 24.—The home of Zeb Mackey, a negro, at Taft Okla., near here, was blown up with dynamite while Mackey and his family were asleep. Mackey's two children, aged ten and fourteen years were killed. The house was burned. Taft is exclusively a negro town of about 1,000 inhabitants. The reason for the attack on Mackey is a mystery.

Speculator Asked to Resign.

Washington, March 24.—Stock market speculation was responsible for the resignation from the department of justice of George M. Scarborough, a special agent of the department's bureau of investigation in New York. After Scarborough admitted he had violated the rules of the department his resignation was requested.

Strikebreaker Shot From Ambush.

Somerset, Ky., March 24.—The second assassination within three days in connection with the strike of white firemen on the Cincinnati, New Orleans and Texas Pacific railroad occurred at Helenwood, Tenn. C. B. Street, a fireman working as a strike breaker, was shot from ambush. He died later.

THIN HAIR ON TOP.

A Dose of Parisian Sage in Time Multiplies One Hair by Nine.

Young men, old men, middle aged men, all begin to worry when the hair thins out on the top of the head, and the bald spot is getting ready to appear in public.

They don't know what to do; they get rattled, ask advice, try specialists, listen to barbers and do everything they ought not to do.

To these men we want to say that the Koch pharmacy has a prescription for the hair called Parisian Sage, and if it will not cause hair to grow where the hair is thinning out, nothing on this earth will.

And we want to say to everybody, man, woman and child, that you can have your money back if Parisian Sage isn't the best hair grower, hair saver, hair beautifier and dandruff cure on the market today.

It stops itching scalp and falling hair, and makes hair grow thick and abundantly. Fifty cents for a large bottle at the Koch pharmacy. The girl with the auburn hair is on every bottle.
